

Demonstration of Proposed Features

Date	28September2026
Team ID	6ab220cfbee0b08a2d2c63cd
Project Name	AUTO TICKET CLASSIFICATION USING FLOW DESIGNER
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the planning phase of the “Auto Tickets Classification Using Flow Designer” project and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the successful development and demonstration of the proposed automated ticket classification solution using Flow Designer.

S.No	Feature Name	Description	Status	Demonstrated	Remarks
1	Ticket Creation	Users can create and submit support tickets by entering the required issue details.	Implemented	Yes	Ticket creation process was demonstrated successfully.
2	Automatic Ticket Classification	The system automatically classifies incoming tickets based on their issue details.	Implemented	Yes	Tickets are classified into the appropriate categories.
3	Flow Designer Automation	Flow Designer automatically processes tickets and performs the defined workflow actions.	Implemented	Yes	Automated workflow was demonstrated successfully.
4	Ticket Assignment	Classified tickets are assigned to the appropriate team or support group.	Implemented	Yes	Ticket assignment workflow was demonstrated.
5	Ticket Status Management	Ticket status is updated according to the progress of the support process.	Implemented	Yes	Different ticket stages were demonstrated.
6	Automated Notifications	Notifications are triggered automatically when important ticket actions or updates occur.	Implemented	Yes	Notification workflow was demonstrated successfully.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
